Education

Wilfrid Laurier University

Bachelor of Science - Computer Science (PEP Program)

Sep 2023 – May 2028

Waterloo, ON

Technical Skills

Languages: C/C++, JavaScript, Typescript, Python, Java, SQL

Web Development: HTML, CSS, Node.js, Express.js, MongoDB

Tools: VS Code, Eclipse, Git, GitHub, Docker

Projects

Team Stats Analyzer | C++

- Built a **C++ analytics tool** that processes **3,500+ Premier League matches (2010–2021)** and automatically generates ranked team tables.
- Applied **Object-Oriented Programming** to model **20 teams per season** and compute totals, averages, and trend based insights across **11 seasons**.
- Implemented custom **evaluation algorithms** analyzing **12+ performance metrics** including possession, shots on target, corners, fouls, tackles, and passes to explain why certain teams outperform others.
- Implemented a **file input system** that dynamically loads new CSV files, supporting expansion to future seasons without modifying program logic.

ServiceLoop | TypeScript

- Collaborated with a team to build a **full-stack SaaS CRM** for service businesses, enabling companies to manage customers, track sales pipelines, and automate outreach campaigns.
- Developed a **customer segmentation system** to filter and group clients by activity status, tags, and engagement history for targeted outreach.
- Implemented a **CSV import system** that parses and validates customer data, enabling bulk uploads of client records into the platform.
- Integrated **Google Gemini AI** to generate personalized outreach messages and customer insights, improving campaign targeting for businesses.

ClientSync | HTML, CSS, Javascript, Node.js, Express, MongoDB

- Built a **full stack client and project management platform** for freelancers and small businesses, enabling organized tracking of clients, projects, notes, and progress.
- Developed **RESTful API endpoints** with **Node.js/Express** and integrated **MongoDB** schemas to support fast data retrieval, flexible updates, and scalable record management.
- Created a clean, modern **responsive dashboard UI** with dark/light mode, allowing users to work efficiently on desktop, tablet, or mobile.

Work Experience

Tire Technician

Tire Teams Centre Inc.

Kitchener, ON

May 2024 – July 2024

- Completed tire inspections, mounting, and rotations while following strict safety protocols.
